

Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

SIMON NEWCOMB

CONTENTS

<i>Simon Newcomb</i> : PROFESSOR R. C. ARCHIBALD	871
<i>The Biology of the Malayan Islands</i> : C. F. BAKER	878
<i>The Presentation of the John Fritz Medal to Elihu Thomson</i> : PRESIDENT RICHARD C. MACLAURIN	881
<i>The Convocation-week Meetings of Scientific Societies</i>	883
<i>Meetings of the Sections of the American Association</i>	885
<i>Scientific Notes and News</i>	887
<i>University and Educational News</i>	890
<i>Discussion and Correspondence</i> :—	
<i>Psychology and Medical Education</i> : PROFESSOR JARED S. MOORE. <i>The Retention of Oil by Clay at Waterville, Me.</i> : HOMER P. LITTLE. <i>The Recognition of Achievement</i> : WILLARD N. CLUTE. <i>Clouds</i> : DR. W. J. HUMPHREYS	890
<i>Scientific Books</i> :—	
<i>Smallwood's Textbook of Biology</i> : PROFESSOR C. E. MCCLUNG	893
<i>Special Articles</i> :—	
<i>The Cause of the Disappearance of Cumarin, Vanillin, Pyridine and Quinoline in the Soil</i> : DR. WILLIAM J. ROBBINS	894
<i>Societies and Academies</i> :—	
<i>The American Physical Society</i> : PROFESSOR A. D. COLE. <i>The Biological Society of Washington</i> : DR. M. W. LYON, JR.	895
<i>The American Association of Variable Star Observers</i> : F. E. B.	898

THE numerous published biographical sketches of Simon Newcomb all fail to set forth accurately the full extent of the world-wide recognition of his contributions to scientific knowledge, and the breadth of his interests and activities. No other American scientist has ever achieved such general recognition of eminence. It seems desirable, therefore, to assemble the facts to fill this lacuna.¹ The plan which Monsieur Lebon has employed in the admirable *Savants du Jour* series suggested the form of the following synoptic notes.

These notes were prepared several years ago in consultation with members of Professor Newcomb's family, and after inspection of his remarkable collection of diplomas, medals, decorations, and certificates of membership and of other honors. This collection became the property of the nation in 1909, and it is now prominently displayed in the historical section of the National Museum in the Smithsonian Institution at Washington.

Born at Wallace, Nova Scotia, March 12, 1835
 1853: Came to the United States.
 1854: Teacher in a country school at Massey's Cross Roads, Kent Co., Md.
 1855: Teacher in the village school at Sudlersville, Md.
 1855, May 26: First publication, a letter in *The National Intelligencer*, Washington, D. C.
 1857, Jan.-Sept. 1861: Computer in the Nautical Almanac office, then located at Cambridge, Mass. (it has been in Washington, D. C. since 1866). See also 1860, 1861.
 1858, July 2: B.Sc., Harvard University, Cambridge, Mass. See also 1875, 1879-80, 1884, 1898-99, 1906.

¹ A complete bibliography of Newcomb's life and works, by the writer, will soon be published elsewhere.

MSS. intended for publication and books, etc., intended for review should be sent to Professor J. McKeen Cattell, Garrison-on-Hudson, N. Y.
